Council Meeting Date: March 4, 2013 Reference Number (ID # 1173)

Submitted by: Vincent Pastue, City Manager

Description: Consideration to Accept and File the Financial Reports for the City of Farmington Brownfield Redevelopment Authority for the Flagstar and TCF Projects

Requested Action:

Move to accept the Financial Reports for the City of Farmington Brownfield Redevelopment Authority for the Flagstar and TCF Projects for the year ending June 30, 2012 and authorize that they be filed with the State Tax Commission.

Background:

On January 7, 2002, the City Council created the City of Farmington Brownfield Redevelopment Authority. Section 16(3) of the enabling legislation regarding Brownfield Redevelopment Authorities specifies that an annual report shall be submitted to the governing body that created the authority and to the State Tax Commission.

Enclosed are the Financial Reports for the City of Farmington Brownfield Redevelopment Authority for the Flagstar Bank and TCF Bank projects for the year ending June 30, 2012. The first page of each report indicates the tax increment revenues generated from each of the local taxing units. The \$6,730.19 generated from the Flagstar Bank is deposited into the Brownfield Redevelopment Fund. \$2,838.16 was generated from the TCF Bank project. Due to Michigan Tax Tribunal judgment, TCF Bank has been reimbursed more that what has been collected in tax increment revenues. As a result, the City is holding these funds until the amount of tax increment revenues and disbursements to TCF Bank are balanced. I am requesting that the City Council accept the reports and authorize that they be filed with the State Tax Commission.

Description: Review of Bids, Engineers Recommendation and Financing for Grove and Warner/Oakland Project

Requested Action:

No action is requested.

Background:

Four bids were received and opened on Thursday, February 21 for the Grove Street and Warner/Oakland Street projects. The low bid was still over what was budgeted for both projects. Prior to the opening, I was concerned that the construction market was changing and it was reflected in the bids. Numerous contractors that would have bid on this project in the past are no longer in business as a result of the economic downturn and compound this with substantially more government projects taking place this year, the economic law of supply and demand drove prices higher. When developing the project budget last winter, I was using 2011 construction prices. The good news is that the three low bids were reasonably close which tells me the bid specifications were clear and that the contractors understood the scope of work.

The bid opening was only part of the process. This is a qualified based selection (QBS) process that looks at a number of factors such as experience with streetscape projects, subcontractors, and references; the bid price is factored into the QBS process. Based on a QBS review, Orchard Hiltz and McCliment (OHM) is recommending that the City award the construction contract to Warren Construction. Attached is OHM letter of recommendation along with the bid tabulation worksheets.

As mentioned earlier, the bids came in higher than what was budgeted. As a result, I have been evaluating alternatives to move forward with the two projects. My concern with doing the project in its entirety during the 2013 construction season is that we put a real pinch on the cash flow for the street funds and still need to eliminate the Oakland Street segment between Farmington Road and Grand River, along the Masonic and Memorial Park site. Listed below are the alternatives considered with the understanding that Grove Street is a priority.

1. Proceed with Grove Street and Warner from Grand River to Thomas Only - This would essentially accomplish all of the work in the Downtown as part of this bid process. Warren Construction is willing to perform this work in 2013 within the timelines specified. From a financing standpoint, it requires that a portion of the funds allocated for local matching grant funds in the Fiscal Year 2014-15 for the Farmington Road Streetscape Project be reduced; the rest proceeds as planned with the DDA reducing some of their scope of work. The rest of the work would be re-bid in 2014. The drawback to this alternative is that the City would incur additional costs to re-bid the project next year with no assurance of lower prices. The benefit of this option is that the Grove Street and Downtown Warner Street projects are completed as scheduled. It also does not strain the cash flow in the street funds

Information Item (ID # 1177)

Meeting of March 4, 2013

- 2. Spread Project over Two Construction Seasons Warren Construction is willing to hold their bid for the remainder of the project (Oakland/Warner in the Residential area) in 2014 subject to possible changes with pricing as it pertains to asphalt, steel, and other commodities, and reasonable re-mobilizing expenses; this would be identified in advance of approving the contract. I think this is reasonable. The benefit of this is the Grove Street and the Downtown segment of the Warner Street Project can be accomplished as planned and as scheduled. It does not strain the cash flow for the street funds, does not strain the public works staff as much (Drake Road, Grove, Warner/Oakland was a lot for our DPW in one year), does not incur additional cost of a re-bid and administering a separate contract, and provides a relatively certain price the following year. Warren Construction would be willing to give us the option not to proceed in 2014 with this segment of the project. It also provides us the alternative to instruct Warren Construction to only do the segment of Warner Street between Thomas and Shiawassee.
- 3. Proceed with the projects in their entirety during the 2013 Construction Season -Again, my concern with this is that it provides a strain on the cash flow for the street funds. It also requires that we eliminate the Oakland Street segment between Farmington and Grand River.
- 4. Reject the bids and re-bid the projects separately I am doubtful that we get better bids by doing this. There would also be added engineer's costs to separate the projects out and re-bid them along with administering separate contracts. It would obviously delay the completion of Grove Street which is important to revitalizing the Downtown and the Groves Center.

Financing - At the study session, I will provide an updated financial projection that incorporates the first three alternatives for the Major Street Fund, Local Street Fund, Municipal Street Fund, and Capital Improvements Fund. The other remaining sources of funds involve the bond proceeds allocated for the streetscape segment of Warner between Grand River and Thomas, and the Water and Sewer Fund reserves for the water main and sewer work. We are still proceeding with the bond issue which is scheduled for March 18. This past week, Chris Weber and I were in contact with Standard & Poors regarding a bond rating for this issue. We should receive notice of the rating on March 6.

Matt Parks from OHM will be at the study session. Since this item is later in the agenda and Matt lives nearby, I will call him when we get close to this item on the agenda.

I will not be asking the City Council to make a decision at this meeting. This is a lot to digest in a short period of time. I will look to schedule a special meeting within the next week.

Mr. Vince Pastue City Manager City of Farmington 23600 Liberty Street Farmington, MI 48335

RE: 2013 Streetscape & Utility Improvements Bid Tabulation, QBS Analysis & Recommendation

Dear Mr. Pastue:

Bids were received and opened on Thursday February 21st, 2013 for the above-referenced project. Four (4) contracting companies submitted bids for the project. The attached bid tabulation confirmed that Cortis Brother's Trucking and Excavating, Inc. was the lowest bidder in the amount of \$2,125,173.95 and ranged up to a high bid of \$3,058,287.27. A team of three engineers and one landscape architect evaluated each bid in terms of cost, proximity to the project, other ongoing projects, reputation, prior work history within the City and the quality of their safety program. When the ratings were completed the average scores showed that Warren Contractors & Development, Inc. scored the highest on the QBS analysis. A summary of the ratings is provided at the bottom of the bid tabulation.

Warren Contracting and Development, Inc scored and average of 87 points out of a possible 100 points. The other bidders were Angelo Iafrate Construction Co. at 84 points and Cortis Brother's at 79 points. The fourth bid submitted by Davenport Brothers Construction Company was not evaluated due to the overall bid price being well beyond what was budgeted for the project.

At the direction of the City, the qualifications submitted by each bidder have been reviewed, and it has been found that all three low bidders are capable of performing the work however two of the teams and their sub-contractors are more experienced in streetscape work within public right-of-way than the low bidder. Based on the information submitted and discussions with the references provided, we feel that Warren Contracting and Development Inc. has the credentials, team of sub-contractors and experience in performing similar types of projects.

At this time, our office recommends that the City award the contract to Warren Contracting and Development, Inc. of Shelby Township, MI in the amount of two million, one hundred ninety seven thousand, two hundred ninety three dollars and fifty eight cents (\$2,197,293.58). Should you have any questions regarding this matter, please contact me at (734) 522-6711.

Sincerely,

Description: Consideration to Accept and File the Financial Reports for the City of Farmington Brownfield Redevelopment Authority for the Flagstar and TCF Projects

Requested Action:

Move to accept the Financial Reports for the City of Farmington Brownfield Redevelopment Authority for the Flagstar and TCF Projects for the year ending June 30, 2012 and authorize that they be filed with the State Tax Commission.

Background:

On January 7, 2002, the City Council created the City of Farmington Brownfield Redevelopment Authority. Section 16(3) of the enabling legislation regarding Brownfield Redevelopment Authorities specifies that an annual report shall be submitted to the governing body that created the authority and to the State Tax Commission.

Enclosed are the Financial Reports for the City of Farmington Brownfield Redevelopment Authority for the Flagstar Bank and TCF Bank projects for the year ending June 30, 2012. The first page of each report indicates the tax increment revenues generated from each of the local taxing units. The \$6,730.19 generated from the Flagstar Bank is deposited into the Brownfield Redevelopment Fund. \$2,838.16 was generated from the TCF Bank project. Due to Michigan Tax Tribunal judgment, TCF Bank has been reimbursed more that what has been collected in tax increment revenues. As a result, the City is holding these funds until the amount of tax increment revenues and disbursements to TCF Bank are balanced. I am requesting that the City Council accept the reports and authorize that they be filed with the State Tax Commission.

Description: Review of Bids, Engineers Recommendation and Financing for Grove and Warner/Oakland Project

Requested Action:

No action is requested.

Background:

Four bids were received and opened on Thursday, February 21 for the Grove Street and Warner/Oakland Street projects. The low bid was still over what was budgeted for both projects. Prior to the opening, I was concerned that the construction market was changing and it was reflected in the bids. Numerous contractors that would have bid on this project in the past are no longer in business as a result of the economic downturn and compound this with substantially more government projects taking place this year, the economic law of supply and demand drove prices higher. When developing the project budget last winter, I was using 2011 construction prices. The good news is that the three low bids were reasonably close which tells me the bid specifications were clear and that the contractors understood the scope of work.

The bid opening was only part of the process. This is a qualified based selection (QBS) process that looks at a number of factors such as experience with streetscape projects, subcontractors, and references; the bid price is factored into the QBS process. Based on a QBS review, Orchard Hiltz and McCliment (OHM) is recommending that the City award the construction contract to Warren Construction. Attached is OHM letter of recommendation along with the bid tabulation worksheets.

As mentioned earlier, the bids came in higher than what was budgeted. As a result, I have been evaluating alternatives to move forward with the two projects. My concern with doing the project in its entirety during the 2013 construction season is that we put a real pinch on the cash flow for the street funds and still need to eliminate the Oakland Street segment between Farmington Road and Grand River, along the Masonic and Memorial Park site. Listed below are the alternatives considered with the understanding that Grove Street is a priority.

1. Proceed with Grove Street and Warner from Grand River to Thomas Only - This would essentially accomplish all of the work in the Downtown as part of this bid process. Warren Construction is willing to perform this work in 2013 within the timelines specified. From a financing standpoint, it requires that a portion of the funds allocated for local matching grant funds in the Fiscal Year 2014-15 for the Farmington Road Streetscape Project be reduced; the rest proceeds as planned with the DDA reducing some of their scope of work. The rest of the work would be re-bid in 2014. The drawback to this alternative is that the City would incur additional costs to re-bid the project next year with no assurance of lower prices. The benefit of this option is that the Grove Street and Downtown Warner Street projects are completed as scheduled. It also does not strain the cash flow in the street funds

Information Item (ID # 1177)

Meeting of March 4, 2013

- 2. Spread Project over Two Construction Seasons Warren Construction is willing to hold their bid for the remainder of the project (Oakland/Warner in the Residential area) in 2014 subject to possible changes with pricing as it pertains to asphalt, steel, and other commodities, and reasonable re-mobilizing expenses; this would be identified in advance of approving the contract. I think this is reasonable. The benefit of this is the Grove Street and the Downtown segment of the Warner Street Project can be accomplished as planned and as scheduled. It does not strain the cash flow for the street funds, does not strain the public works staff as much (Drake Road, Grove, Warner/Oakland was a lot for our DPW in one year), does not incur additional cost of a re-bid and administering a separate contract, and provides a relatively certain price the following year. Warren Construction would be willing to give us the option not to proceed in 2014 with this segment of the project. It also provides us the alternative to instruct Warren Construction to only do the segment of Warner Street between Thomas and Shiawassee.
- 3. Proceed with the projects in their entirety during the 2013 Construction Season -Again, my concern with this is that it provides a strain on the cash flow for the street funds. It also requires that we eliminate the Oakland Street segment between Farmington and Grand River.
- 4. Reject the bids and re-bid the projects separately I am doubtful that we get better bids by doing this. There would also be added engineer's costs to separate the projects out and re-bid them along with administering separate contracts. It would obviously delay the completion of Grove Street which is important to revitalizing the Downtown and the Groves Center.

Financing - At the study session, I will provide an updated financial projection that incorporates the first three alternatives for the Major Street Fund, Local Street Fund, Municipal Street Fund, and Capital Improvements Fund. The other remaining sources of funds involve the bond proceeds allocated for the streetscape segment of Warner between Grand River and Thomas, and the Water and Sewer Fund reserves for the water main and sewer work. We are still proceeding with the bond issue which is scheduled for March 18. This past week, Chris Weber and I were in contact with Standard & Poors regarding a bond rating for this issue. We should receive notice of the rating on March 6.

Matt Parks from OHM will be at the study session. Since this item is later in the agenda and Matt lives nearby, I will call him when we get close to this item on the agenda.

I will not be asking the City Council to make a decision at this meeting. This is a lot to digest in a short period of time. I will look to schedule a special meeting within the next week.

RE: 2013 Streetscape & Utility Improvements Bid Tabulation, QBS Analysis & Recommendation

Dear Mr. Pastue:

Bids were received and opened on Thursday February 21st, 2013 for the above-referenced project. Four (4) contracting companies submitted bids for the project. The attached bid tabulation confirmed that Cortis Brother's Trucking and Excavating, Inc. was the lowest bidder in the amount of \$2,125,173.95 and ranged up to a high bid of \$3,058,287.27. A team of three engineers and one landscape architect evaluated each bid in terms of cost, proximity to the project, other ongoing projects, reputation, prior work history within the City and the quality of their safety program. When the ratings were completed the average scores showed that Warren Contractors & Development, Inc. scored the highest on the QBS analysis. A summary of the ratings is provided at the bottom of the bid tabulation.

Warren Contracting and Development, Inc scored and average of 87 points out of a possible 100 points. The other bidders were Angelo Iafrate Construction Co. at 84 points and Cortis Brother's at 79 points. The fourth bid submitted by Davenport Brothers Construction Company was not evaluated due to the overall bid price being well beyond what was budgeted for the project.

At the direction of the City, the qualifications submitted by each bidder have been reviewed, and it has been found that all three low bidders are capable of performing the work however two of the teams and their sub-contractors are more experienced in streetscape work within public right-of-way than the low bidder. Based on the information submitted and discussions with the references provided, we feel that Warren Contracting and Development Inc. has the credentials, team of sub-contractors and experience in performing similar types of projects.

At this time, our office recommends that the City award the contract to Warren Contracting and Development, Inc. of Shelby Township, MI in the amount of two million, one hundred ninety seven thousand, two hundred ninety three dollars and fifty eight cents (\$2,197,293.58). Should you have any questions regarding this matter, please contact me at (734) 522-6711.

Sincerely,

OHM Advisors
